**PRECONSENT: Info**

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey (GSS) for more than 50 years to keep a historical record of the concerns, experiences, attitudes and practices of Americans. Your household was randomly selected from addresses across the nation for participation. The information collected is used by policy makers, scientific researchers, government officials and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, family, government, science, and health. Some topics may be sensitive for you, and you can decline to answer any question.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to think about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview length varies for different households; for most people, it usually takes about 90 minutes. You may also be contacted in the future to participate in a future round of the General Social Survey or another study established by the National Science Foundation. Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey or any other surveys. Any future participation on your part will again require us to gain your consent.

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.

We have received a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Some people think that the government in Washington ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor. Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

Here is a scale from 1 to 7. Think of a score of 1 as meaning that the government ought to reduce the income differences between rich and poor, and a score of 7 meaning that the government should not concern itself with reducing income differences. What score between 1 and 7 comes closest to the way you feel?

Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you

think almost all of the people in that group are 'rich.' A score of 7 means that you think almost all of the people in the group are 'poor.' A score of 4 means that you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand.

**WORDINT: Info**

We would like to know something about how people go about guessing words they do not know. On the following screens will be listed some words – you may know some of them, and you may not know quite a few of them.

On each line the first word is in capital letters – like BEAST. Then there are five other words. Please indicate the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would select “animal” since it comes closer to BEAST than any of the other words.

These words are difficult for almost everyone – just give your best guess if you are not sure of the answer.

### **RATEINTRO: Info**

Please look at the graphic below.

We would like to get your feelings toward people and groups who are in the news these days. We'll show the name of a person or group and we'd like you to rate them between 0 and 100.

Ratings between 50 degrees and 100 degrees mean that you feel favorable toward them. Ratings between 0 degrees and 50 degrees mean you feel unfavorable toward them. A rating of 50 means you don't feel particularly favorably or unfavorably toward the person or group.

One important purpose of our survey is to gather information about our society in order to explain trends in attitudes and behaviors. The GSS seeks to support the study of opinion data with more behavioral, fact-based information. To do this, we need your permission to search government records that may exist now or in the future such as Census data, unemployment or social security information, Medicaid and Medicare, health records and other sources. We would link your interview with that information upon completion of the survey. Also, we would like to be able to continue combining these data for the foreseeable future. Each time, in the future, we will remove personally identifiable information after the linking process, and store anonymous data for the duration of our study. The best way for us to get this information without taking up any more of your time is to conduct the work in a secure data facility meeting strict Federal Information Security Management Act requirements, and we need your permission to proceed. All identifying information will be kept confidential as required by law. If at any time you change your mind, you can contact us at the toll-free number 888-837-8988.

May we try to link government records with your survey answers?

If you would like to learn more about this, you can review Frequently Asked Questions at <https://gss.norc.org/Documents/MyGSS/AdminConsent.pdf>.

| {x} | The second set of characteristics asks if people in the group tend to be hardworking or if they tend to be lazy.                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| {y} | Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "Hardworking." A score of 7 means that you think almost all of the people in the group are "Lazy." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in this group stand. |

SecF\_SEX\_HE\_SHE} became very agitated, sweaty and {response to SecF\_SEX\_HE\_SHE} couldn't sleep, so {response to SecF\_SEX\_HE\_SHE} took another drink. {response to SecF\_SEX\_HIS\_HER} family has complained that {response to SecF\_SEX\_HE\_SHE} is often hung-over, and has become unreliable – making plans one day, and canceling them the next.

{response to SecF\_NAME} is {response to SecF\_RACE} {response to SecF\_SEX\_MAN\_WOMAN} who has completed {response to SecF\_EDUCATION}. For the last two weeks {response to SecF\_NAME} has been feeling really down. {response to SecF\_SEX\_HE\_SHE} wakes up in the morning with a flat, heavy feeling that sticks with {response to SecF\_SEX\_HIM\_HER} all day long. {response to SecF\_SEX\_HE\_SHE} isn't enjoying things the way {response to SecF\_SEX\_HE\_SHE} normally would. In fact nothing seems to give {response to SecF\_SEX\_HIM\_HER} pleasure. Even when good things happen, they don't seem to make {response to SecF\_NAME} happy. {response to SecF\_SEX\_HE\_SHE} pushes on through {response to SecF\_SEX\_HIS\_HER} days, but it is really hard. The smallest tasks are difficult to accomplish. {response to SecF\_SEX\_HE\_SHE} finds it hard to concentrate on anything. {response to SecF\_SEX\_HE\_SHE} feels out of energy and out of steam. And even though {response to SecF\_NAME} feels tired, when night comes {response to SecF\_SEX\_HE\_SHE} can't get to sleep. {response to SecF\_NAME} feels pretty worthless, and very discouraged. {response to SecF\_NAME}'s family has noticed that {response to SecF\_SEX\_HE\_SHE} hasn't been {response to SecF\_SEX\_HIM\_HER}self for about the last month, and that {response to SecF\_SEX\_HE\_SHE} has pulled away from them. {response to SecF\_NAME} just doesn't feel like talking.

{\_c}

{response to SecF\_NAME} is {response to SecF\_RACE} {response to SecF\_SEX\_MAN\_WOMAN} who has completed {response to SecF\_EDUCATION}. Up until a year ago, life was pretty okay for {response to SecF\_NAME}. But then, things started to change. {response to SecF\_SEX\_HE\_SHE} thought that people around {response to SecF\_SEX\_HIM\_HER} were making disapproving comments, and talking behind {response to SecF\_SEX\_HIS\_HER} back. {response to SecF\_NAME} was convinced that people were spying on {response to SecF\_SEX\_HIM\_HER} and that they could hear what {response to SecF\_SEX\_HE\_SHE} was thinking. {response to SecF\_NAME} lost {response to SecF\_SEX\_HIS\_HER} drive to participate in {response to SecF\_SEX\_HIS\_HER} usual work and family activities and retreated to {response to SecF\_SEX\_HIS\_HER} home, eventually spending most of {response to SecF\_SEX\_HIS\_HER} day in {response to SecF\_SEX\_HIS\_HER} room. {response to SecF\_NAME} became so preoccupied with what {response to SecF\_SEX\_HE\_SHE} was thinking that {response to SecF\_SEX\_HE\_SHE} skipped meals and stopped bathing regularly. At night, when everyone else was sleeping, {response to SecF\_SEX\_HE\_SHE} was walking back and forth in {response to SecF\_SEX\_HIS\_HER} room. {response to SecF\_NAME} was hearing voices even though no one else was around. These voices told {response to SecF\_SEX\_HIM\_HER} what to do and what to think. {response to SecF\_SEX\_HE\_SHE} has been living this way for six months.

{response to SecF\_NAME} is {response to SecF\_RACE} {response to SecF\_SEX\_MAN\_WOMAN} who has completed {response to

SecF\_EDUCATION}. About a year ago, {response to SecF\_NAME} was prescribed prescription pain medication for back pain {response to SecF\_SEX\_HE\_SHE} developed following a car accident. {response to SecF\_SEX\_HE\_SHE} took the pain medication regularly, and after a few weeks found that {response to SecF\_SEX\_HE\_SHE} increasingly felt the desire for more, even though {response to SecF\_SEX\_HIS\_HER} back pain had improved. {response to SecF\_NAME} went to several different doctors to get more prescriptions from them and then started getting them from a friend. Each time {response to SecF\_NAME} tried to cut down, {response to SecF\_SEX\_HE\_SHE} felt anxious and became sweaty and nauseated for hours on end and also could not sleep. These symptoms lasted until {response to SecF\_SEX\_HE\_SHE} resumed taking the prescription pain medication. {response to SecF\_NAME}'s friends complained that {response to SecF\_SEX\_HE\_SHE} had become unreliable -- making plans one day, and canceling them the next. {response to SecF\_SEX\_HIS\_HER} family said {response to SecF\_SEX\_HE\_SHE} had changed and that they could no longer count on {response to SecF\_SEX\_HIS\_HER}. {response to SecF\_NAME} has been living this way for six months. {response to SecF\_NAME} is {response to SecF\_RACE} {response to SecF\_SEX\_MAN\_WOMAN} who has completed {response to SecF\_EDUCATION}. Up until a year ago, life was pretty okay for {response to SecF\_NAME}. While nothing much is going wrong in {response to SecF\_NAME}'s life {response to SecF\_SEX\_HE\_SHE} sometimes feels worried, a little sad, or has trouble sleeping at night. {response to SecF\_NAME} feels that at times things bother {response to SecF\_SEX\_HIS\_HER} more than they bother other people and that when things go wrong, {response to SecF\_SEX\_HE\_SHE} sometimes get nervous or annoyed. Otherwise {response to SecF\_NAME} is getting along pretty well. {response to SecF\_SEX\_HE\_SHE} enjoys being with other people and although {response to SecF\_NAME} sometimes argues with {response to SecF\_SEX\_HIS\_HER} family, {response to SecF\_NAME} has been getting along pretty well with {response to SecF\_SEX\_HIS\_HER} family.

In the last few months, {response to VIGNAME} has been increasingly moody, staying in {response to SecF\_SEX\_HIS\_HER} room after school, and seems to have lost interest in {response to SecF\_SEX\_HIS\_HER} favorite hobbies and in friends. {response to VIGNAME} says that {response to SecF\_SEX\_HE\_SHE} always feels very tired even though {response to SecF\_SEX\_HE\_SHE} is sleeping more than normal, and doesn't feel like eating. {response to VIGNAME} has been having trouble concentrating on what {response to SecF\_SEX\_HE\_SHE} is doing both in school and at home.

**IMPUVIG: Info**

{response to VIGNAME} is a {response to VIGRACE}, {response to VIGSEX} {response to VIGAGE} years old. {response to VIGNAME} did not have an easy childhood but the details are not well known to others. {response to VIGNAME} has some difficulty making new friends, and frequently gets into minor scrapes and arguments with adults in authority and peers. {response to SecF\_SEX\_HE\_SHE} is a risk taker which sometimes is an advantage in life, but sometimes {response to SecF\_SEX\_HE\_SHE} can act too quickly without thinking about the possible negative consequences to {response to SecF\_SEX\_HIM\_HER}self or others. {response to VIGNAME} has a lot of different hobbies, but struggles to stay interested in them for long. {response to SecF\_SEX\_HIS\_HER} teachers have noticed that {response to VIGNAME} often speaks without thinking, and often flies off the handle when the teacher tells {response to SecF\_SEX\_HIM\_HER} they got an answer to a question wrong, or when {response to SecF\_SEX\_HIS\_HER} parents correct {response to SecF\_SEX\_HIM\_HER} for any misbehavior.

Recently, {response to VIGNAME} has been feeling distressed because {response to SecF\_SEX\_HIS\_HER} only close friend started avoiding {response to SecF\_SEX\_HIM\_HER}.

**PERFVIG: Info**

{response to VIGNAME} is a {response to VIGRACE}, {response to VIGSEX} {response to VIGAGE} years old. {response to VIGNAME} has always been popular at school – everyone admires {response to SecF\_SEX\_HIM\_HER}. {response to SecF\_SEX\_HE\_SHE\_} is a class leader, is in the gifted program, and everyone thinks {response to SecF\_SEX\_HE\_SHE\_} is the most likely to succeed in adulthood. But recently {response to VIGNAME} has been struggling in school. It started with one bad grade on an important test and went downhill from there. Now {response to VIGNAME} is afraid {response to SecF\_SEX\_HE\_SHE\_} won't be able to get back on track and get into {response to SecF\_SEX\_HIS\_HER} dream college. What's worse – everyone still thinks {response to SecF\_SEX\_HE\_SHE\_} is the perfect student because {response to VIGNAME} has been too ashamed to tell {response to SecF\_SEX\_HIS\_HER} friends. {response to SecF\_SEX\_HE\_SHE\_}'s also really afraid to tell {response to SecF\_SEX\_HIS\_HER} parents – they've always stressed how important achievement is, and {response to SecF\_SEX\_HE\_SHE\_} is afraid to let them down. {response to SecF\_SEX\_HE\_SHE\_} doesn't know what to do, but {response to SecF\_SEX\_HIS\_HER} anxiety and stress about managing this on {response to SecF\_SEX\_HIS\_HER} own is becoming overwhelming.
