PRECONSENT: Info

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey (GSS) for more than 50 years to keep a historical record of the concerns, experiences, attitudes and practices of Americans. Your household was randomly selected from addresses across the nation for participation. The information collected is used by policy makers, scientific researchers, government officials and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, family, government, science, and health. Some topics may be sensitive for you, and you can decline to answer any question.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to think about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview length varies for different households; for most people, it usually takes about 90 minutes. You may also be contacted in the future to participate in a future round of the General Social Survey or another study established by the National Science Foundation. Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey or any other surveys. Any future participation on your part will again require us to gain your consent.

CONSENT: Categorical (Single)

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.

We have received a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Please press 'Next' to continue with the survey.

Some people think that the government in Washington ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor. Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

Here is a scale from 1 to 7. Think of a score of 1 as meaning that the government ought to reduce the income differences between rich and poor, and a score of 7 meaning that the government should not concern itself with reducing income differences. What score between 1 and 7 comes closest to the way you feel?

HELPNOT: Categorical (Single)

Some people think that the government in Washington is trying to do too many things that should be left to individuals and private businesses. Others disagree and think that the government should do even more to solve our country's problems. Still others have opinions somewhere in between.

Where would you place yourself on this scale, or haven't you made up your mind on this?

HELPSICK: Categorical (Single)

In general, some people think that it is the responsibility of the government in Washington to see to it that people have help in paying for doctors and hospital bills. Others think that these matters are not the responsibility of the federal government and that people should take care of these things themselves.

Where would you place yourself on this scale, or haven't you made up your mind on this?

MDDtoDOC - GSS2024M_BALLOT3.MDD - 1/9/2025 2:53:41 PM

We would like to know something about how people go about guessing words they do not know. On the following screens will be listed some words – you may know some of them, and you may not know quite a few of them.

On each line the first word is in capital letters – like BEAST. Then there are five other words. Please indicate the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would select “animal” since it comes closer to BEAST than any of the other words.

These words are difficult for almost everyone – just give your best guess if you are not sure of the answer.

RATEINTRO: Info

Please look at the graphic below.

We would like to get your feelings toward people and groups who are in the news these days. We'll show the name of a person or group and we'd like you to rate them between 0 and 100.

Ratings between 50 degrees and 100 degrees mean that you feel favorable toward them. Ratings between 0 degrees and 50 degrees mean you feel unfavorable toward them. A rating of 50 means you don't feel particularly favorably or unfavorably toward the person or group.

PERFVIG: Info

{response to VIGNAME} is a {response to VIGRACE}, {response to VIGSEX} {response to VIGAGE} years old. {response to VIGNAME} has always been popular at school – everyone admires {response to SecF_SEX_HIM_HER}. {response to SecF_SEX_HE_SHE} is a class leader, is in the gifted program, and everyone thinks {response to SecF_SEX_HE_SHE} is the most likely to succeed in adulthood. But recently {response to VIGNAME} has been struggling in school. It started with one bad grade on an important test and went downhill from there. Now {response to VIGNAME} is afraid {response to SecF_SEX_HE_SHE} won't be able to get back on track and get into {response to SecF_SEX_HIS_HER} dream college. What's worse – everyone still thinks {response to SecF_SEX_HE_SHE} is the perfect student because {response to VIGNAME} has been too ashamed to tell {response to

SecF_SEX_HIS_HER} friends. {response to SecF_SEX_HE_SHE_}'s also really afraid to tell {response to SecF_SEX_HIS_HER} parents – they've always stressed how important achievement is, and {response to SecF_SEX_HE_SHE_} is afraid to let them down. {response to SecF_SEX_HE_SHE_} doesn't know what to do, but {response to SecF_SEX_HIS_HER} anxiety and stress about managing this on {response to SecF_SEX_HIS_HER} own is becoming overwhelming.

One important purpose of our survey is to gather information about our society in order to explain trends in attitudes and behaviors. The GSS seeks to support the study of opinion data with more behavioral, fact-based information. To do this, we need your permission to search government records that may exist now or in the future such as Census data, unemployment or social security information, Medicaid and Medicare, health records and other sources. We would link your interview with that information upon completion of the survey. Also, we would like to be able to continue combining these data for the foreseeable future. Each time, in the future, we will remove personally identifiable information after the linking process, and store anonymous data for the duration of our study. The best way for us to get this information without taking up any more of your time is to conduct the work in a secure data facility meeting strict Federal Information Security Management Act requirements, and we need your permission to proceed. All identifying information will be kept confidential as required by law. If at any time you change your mind, you can contact us at the toll-free number 888-837-8988.

May we try to link government records with your survey answers?

If you would like to learn more about this, you can review Frequently Asked Questions at <https://gss.norc.org/Documents/MyGSS/AdminConsent.pdf>.

{y}	Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "Hardworking." A score of 7 means that you think almost all of the people in the group are "Lazy." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in this group stand.

During the last month {response to SecF_NAME} has started to drink more than {response to SecF_SEX_HIS_HER} usual amount of alcohol. In fact, {response to SecF_SEX_HE_SHE} has noticed that {response to SecF_SEX_HE_SHE} needs to drink twice as much as {response to SecF_SEX_HE_SHE} used to to get the same effect. Several times, {response to SecF_SEX_HE_SHE} has tried to cut down, or stop drinking, but {response to SecF_SEX_HE_SHE} can't. Each time {response to SecF_SEX_HE_SHE} has tried to cut down, {response to SecF_SEX_HE_SHE} became very agitated, sweaty and {response to SecF_SEX_HE_SHE} couldn't sleep, so {response to SecF_SEX_HE_SHE} took another drink. {response to

SecF_SEX_HIS_HER_} family has complained that {response to SecF_SEX_HE_SHE} is often hung-over, and has become unreliable – making plans one day, and canceling them the next. {response to SecF_NAME} is {response to SecF_RACE} {response to SecF_SEX_MAN_WOMAN} who has completed {response to SecF_EDUCATION}. For the last two weeks {response to SecF_NAME} has been feeling really down. {response to SecF_SEX_HE_SHE_} wakes up in the morning with a flat, heavy feeling that sticks with {response to SecF_SEX_HIM_HER} all day long. {response to SecF_SEX_HE_SHE_} isn't enjoying things the way {response to SecF_SEX_HE_SHE} normally would. In fact nothing seems to give {response to SecF_SEX_HIM_HER} pleasure. Even when good things happen, they don't seem to make {response to SecF_NAME} happy. {response to SecF_SEX_HE_SHE_} pushes on through {response to SecF_SEX_HIS_HER} days, but it is really hard. The smallest tasks are difficult to accomplish. {response to SecF_SEX_HE_SHE_} finds it hard to concentrate on anything. {response to SecF_SEX_HE_SHE_} feels out of energy and out of steam. And even though {response to SecF_NAME} feels tired, when night comes {response to SecF_SEX_HE_SHE} can't get to sleep. {response to SecF_NAME} feels pretty worthless, and very discouraged. {response to SecF_NAME}'s family has noticed that {response to SecF_SEX_HE_SHE} hasn't been {response to SecF_SEX_HIM_HER}self for about the last month, and that {response to SecF_SEX_HE_SHE} has pulled away from them. {response to SecF_NAME} just doesn't feel like talking.

{_c}

{response to SecF_NAME} is {response to SecF_RACE} {response to SecF_SEX_MAN_WOMAN} who has completed {response to SecF_EDUCATION}. Up until a year ago, life was pretty okay for {response to SecF_NAME}. But then, things started to change. {response to SecF_SEX_HE_SHE_} thought that people around {response to SecF_SEX_HIM_HER} were making disapproving comments, and talking behind {response to SecF_SEX_HIS_HER} back. {response to SecF_NAME} was convinced that people were spying on {response to SecF_SEX_HIM_HER} and that they could hear what {response to SecF_SEX_HE_SHE} was thinking. {response to SecF_NAME} lost {response to SecF_SEX_HIS_HER} drive to participate in {response to SecF_SEX_HIS_HER} usual work and family activities and retreated to {response to SecF_SEX_HIS_HER} home, eventually spending most of {response to SecF_SEX_HIS_HER} day in {response to SecF_SEX_HIS_HER} room. {response to SecF_NAME} became so preoccupied with what {response to SecF_SEX_HE_SHE} was thinking that {response to SecF_SEX_HE_SHE} skipped meals and stopped bathing regularly. At night, when everyone else was sleeping, {response to SecF_SEX_HE_SHE} was walking back and forth in {response to SecF_SEX_HIS_HER} room. {response to SecF_NAME} was hearing voices even though no one else was around. These voices told {response to SecF_SEX_HIM_HER} what to do and what to think. {response to SecF_SEX_HE_SHE_} has been living this way for six months.

{_d}

{response to SecF_NAME} is {response to SecF_RACE} {response to SecF_SEX_MAN_WOMAN} who has completed {response to SecF_EDUCATION}. About a year ago, {response to SecF_NAME} was prescribed prescription pain medication for back pain {response to SecF_SEX_HE_SHE} developed following a car accident. {response

to SecF_SEX_HE_SHE_} took the pain medication regularly, and after a few weeks found that {response to SecF_SEX_HE_SHE_} increasingly felt the desire for more, even though {response to SecF_SEX_HIS_HER_} back pain had improved. {response to SecF_NAME_} went to several different doctors to get more prescriptions from them and then started getting them from a friend. Each time {response to SecF_NAME_} tried to cut down, {response to SecF_SEX_HE_SHE_} felt anxious and became sweaty and nauseated for hours on end and also could not sleep. These symptoms lasted until {response to SecF_SEX_HE_SHE_} resumed taking the prescription pain medication. {response to SecF_NAME_}'s friends complained that {response to SecF_SEX_HE_SHE_} had become unreliable -- making plans one day, and canceling them the next. {response to SecF_SEX_HIS_HER_} family said {response to SecF_SEX_HE_SHE_} had changed and that they could no longer count on {response to SecF_SEX_HIM_HER_}. {response to SecF_NAME_} has been living this way for six months. {response to SecF_NAME_} is {response to SecF_RACE_} {response to SecF_SEX_MAN_WOMAN_} who has completed {response to SecF_EDUCATION_}. Up until a year ago, life was pretty okay for {response to SecF_NAME_}. While nothing much is going wrong in {response to SecF_NAME_}'s life {response to SecF_SEX_HE_SHE_} sometimes feels worried, a little sad, or has trouble sleeping at night. {response to SecF_NAME_} feels that at times things bother {response to SecF_SEX_HIM_HER_} more than they bother other people and that when things go wrong, {response to SecF_SEX_HE_SHE_} sometimes get nervous or annoyed. Otherwise {response to SecF_NAME_} is getting along pretty well. {response to SecF_SEX_HE_SHE_} enjoys being with other people and although {response to SecF_NAME_} sometimes argues with {response to SecF_SEX_HIS_HER_} family, {response to SecF_NAME_} has been getting along pretty well with {response to SecF_SEX_HIS_HER_} family.
